## TurboShearFC

Now turn your power drill into a "fiber cement shear"! Malco's unique, new, patented *TurboShearFC* attaches to your existing A/C or cordless drill to go where the work is. Makes clean, precise cuts, (including window and door arches), in fiber cement siding and backerboard up to 1/2".

Model No.  
TSFC

- Versatile TurboShearFC accessory fits most 14.4 V or larger cordless or standard A/C power drills for easy operation anywhere on the job site.

- The TurboShearFC also navigates curves for window and door arcs in fiber cement siding.

NEW No. TSHD

## TurboShearHD

**HEAVY-DUTY TurboShear HD even cuts spiral duct one-handed!**

**CAPACITIES:**

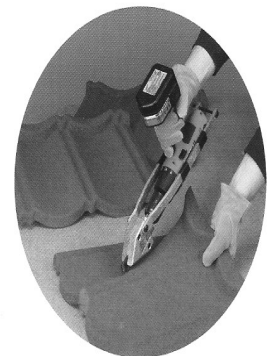

Heavy-duty jaws and gearing are suitable for cutting 18-GAUGE galvanized steel and most other common sheet metals. 20-gauge capacity in layered metal seams.

The TurboShear HD even makes angled crosscuts through profiles of metal building panels and stone coated metal shingles.

Re-position upside down as necessary for greater maneuverability.
